Hi Ricardo,

I have deleted the Center for Food Safety petition because it is more broader in scope and not specific to neonics, even though it mentions neonic chemicals. My branch is working on a response with OGC but it mostly likely will not be completed by the time the ID is issued.

Elissa,

I've revised the bullets to add more details on the petitions related to the neonics that we plan on addressing. Jon Williams, who is working on the NRDC petition, also let me know he has drafted some more detailed talking points specific to that petition if needed.

Thanks everyone. Can we be more explicit about the petitions we have received for the last bullet below? We won't be discussing the petitions but can just say that we are working on it.

Thanks for clarifying Linda. I did some checking and it looks like the NRDC petition is on tolerances and not seed treatment. Also, it's in Kevin's branch. I have Jon a heads up that we may need a couple of bullets, and I'm copying Kevin to see if he thinks he can provide a couple of additional bullets.

Elissa

Just to clarify, the treated seed petition that my branch is working with OGC should not be included with the neonic ID. It is broader in scope and not from NRDC.

Elissa,

Ricardo put together the below for Ed for his request on treated seeds and neonics for the NRDC meeting on 3/5. Please let me know if you're ok with the below, and if you'll be sending this up, or if you'd like us to do so.

Thanks,
Dana

Dana,

Below are a few bullets describing the neonic plans and seed treatment mitigation based on previous PPDC key points. I heard back from Linda that she doesn't have anything to add for the petition discussion. So I've just added a bullet noting that we will be responding to FIFRA petitions in our Interim Decisions. Please let me know if you think I should add anything else.

Sure thing. We can probably pull one of our briefing slides for the PID for the mitigation, and I'll check with the folks that are working on the petition response to see if they have any updates.

Hi Ricardo,

Would you please take a look at the below on treated seeds and neonics – can the neonics team pull some info together for Ed by some time tomorrow?

Many thanks,
Dana

See email chain below. Appears a question regarding neonics and treated seeds. Looks like there is a meeting on March 5th.

Ed,

Attorney Client / Ex. 5

Let me know what you prefer,
Erin

Here's Aaron's response to the follow up inquiry:

Below are the items on the agenda in the calendar invite I received.

- Neonicotinoids – where do we go from here
- Registration review timing. Is EPA on track for the 2022 deadline?
 - What about the remaining OPs?
- Ethylene Oxide
- Streptomycin and Aldicarb

The calendar invite was sent to the following people, although I can't be sure that this is a complete list of expected attendees. Jen Sass and Dan Raichel are at NRDC; I assume all of the others are EPA staff.

Messina, Edward; Goodis, Michael; Sass, Jennifer; Matuszko, Jan; Reaves, Elissa; Pease, Anita; Echeverria, Marietta; Raichel, Dan
